### DETAILED ACTION

1. Newly submitted figures 1, 2, 3, and 4 submitted with the replacement sheets of 8-22-05 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

2. The replacement drawings filed 8-22-05 are objected to because newly submitted figures 5, 6, and 7 are very confusing and not consistent with the brief drawing descriptions or the instant specification text. Note for example, new figures 5 and 6 do not correspond to figures 1 and 2 of the '586 patent as indicated in the brief drawing descriptions and on the top of page 6 of the instant specification. Additionally note, the brief drawing description of figure 8 indicates that it is a top view of figure 7. Such is not the case in view of new figure 7. In paragraph 29 of the specification, the references made to figures 7 and 8 are not consistent with the changes to figure 7. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an

Art Unit: 3612

amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

3. The amendment filed 8-22-05 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows:

Newly submitted figure 7 is not clearly supported in the original specification papers. Note new figure 7 teaches a tractor trailer arrangement with multiple trailers arranged in a train. The new figure 7 shows differing embodiments of drag reducers (i.e. 300 and 400) between the various gaps of the train. Nowhere in the original application papers is such an arrangement supported.

Applicant is required to cancel the new matter in the reply to this Office Action.

4. Claims 1-3, 9-11, and 15 are allowed.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
